Boscobel, WI

Roddy, the Muscoda Veteran's Memorial Committee feels extremely fortunate to have chosen your company to build our veteran's memorial. Not only was the design a unique and creative piece of art, but the work in information gathering for the format was second to none. You and Lorinda were not only thinking in military terms, but through question and answer sessions got a feel of how the communities history could be incorporated in the appropriate design.

Your approach was; we can modify this design and add or subtract from the design until we the committee are totally satisfied with every aspect. The committee is extremely satisfied and proud of the memorial design and construction.

Sincerely

*The Muscoda Area Veteran's Memorial Committee*
